

IT'S EASY TO HAVE A CUSTOM TANK TO BE PROUD OF!

Quality Custom from Spokane Industries

For over 30 years, Spokane Industries has worked closely with our customers to build custom fabricated stainless steel tanks that meet their needs and exceeds their expectations. We are an ASME and UL accredited shop, certified to build to D.O.T. requirements. We look forward to working with you on your next custom tailored lawn care or landscape chemical tank requirement!

1600 gallon elliptical tank, D.O.T. 406, custom commercial chassis mount on customer provided truck.

A SMALL SAMPLE OF RECENT TANKS

A self-contained lawn care job truck. Customer specified all gear stowage positions. A real professional looking truck this company can be proud of!

A multi-compartment application truck. Note securable rear gear stowage cabinet.

The top of a multi-compartment chemical applicator tank. This round tank is designed to mount on an Isuzu/GM chassis.

A close-up of the gear stowage cabinet doors opened.

A large elliptical fertilizer tank designed to be mounted on a customer's commercial truck chassis. Built for a California golf course maintenance company. Note the integrated fenders, and rugged rear ladder. The fenders include pre-drilled holes for the favorite customer's mudflaps. Customize tanks any way you want.

A D.O.T highway rated spray tank built by Spokane Industries.
