

Si-Tec® Ceramic Shoes Triple Wear Life

Cemco 80 - VSI Crusher
0052717HS Si-Tec® Ceramic Shoe

USA

*“Wear life
for the shoes
improved by
200%, going from
24 hours to 72
hours”*

Baseline:

- 6 shoe table running at 1700 RPM
- Feed Size of 1" X 2"
- Output size of 1/4" Minus
- OEM standard chrome shoes - 24 hours run time per set

Objective:

- Extend wear life of shoes while maintaining the same finished product and output

Results:

- The Si-Tec® ceramic shoes lasted 72 hours, more than three times the run time of standard chrome shoes
- Maintained the same output size and finished product

Value Delivered:

- Fewer change outs results in increased machine up time and improved safety
